

Create a menu-based CRUD application

The following table will be used for the application:

```
mysql> desc employee;
```

Field	Type	Null	Key	Default	Extra
id	int(11)	NO	PRI	NULL	auto_increment
name	varchar(50)	NO		NULL	
salary	int(11)	NO		NULL	
designation	varchar(30)	NO		NULL	
joiningdate	date	NO		NULL	

5 rows in set (0.06 sec)

The table creation script given below:

```
CREATE TABLE employee (  
  id int(11) NOT NULL AUTO_INCREMENT,  
  name varchar(50) NOT NULL,  
  salary int(11) NOT NULL,  
  designation varchar(30) NOT NULL,  
  joiningdate date NOT NULL,  
  PRIMARY KEY (id)  
);
```

1. Create a menu based Spring Boot Application. Follow the below mentioned package structure
 - a) com.bean.Employee
 - b) com.service.EmployeeService
 - c) com.repository.EmployeeRepository
2. Edit the *application.properties* file to make proper entries for the following:

```
spring.jpa.hibernate.ddl-auto=none  
spring.datasource.url=jdbc:mysql://localhost/<<db_name>>  
spring.datasource.username=root  
spring.datasource.password=<<password>>  
spring.datasource.driver-class-name=com.mysql.cj.jdbc.Driver  
spring.jpa.properties.hibernate.dialect = org.hibernate.dialect.MySQL8Dialect
```
3. The following functionalities must be handled in the service layer.
 - a) List<Employee> findAllEmployees() - Return the list of all employees
 - b) void addEmployee(Employee e) - Save the record of new employee. If saved, display "Record saved" else display "Failed to save the record".
 - c) Employee findById(int id) - Find the details of a specific employee. If not found, display "No such employee found".
 - d) List<Employee> findEmployeesByDesignation(String designation) - Find the details of employees with specific designation. If not found, display "No such designation holders".
 - e) boolean reviseSalary(int salary,int id)- Revise the salary of an employee based on employee id. If updated, display "Updation done" else display "No such record".
 - f) boolean removeEmployeeRecord(int emp_id_del)- Remove the record of an employee based on id passed. If not found, display "No such record". If deleted, display "Record removed"

REFER TO THE BELOW SAMPLE INPUT-OUTPUT FOR UNDERSTANDING THE MENU FLOW

Sample Input/Output

Menu

1. Add new employee
2. Find employee with id
3. Find employees of designation

4. Find all employees
5. Revise salary for employee with id
6. Remove an employee with id

4

--- All Employees List ---

	Id	Name	Salary	Designation	Joining Date
109		Sanjeev Kapoor	29000	developer	2018-01-08
110		Tanvi Agarwal	25050	developer	2019-11-21
111		Survi Kumari	24500	tester	2020-01-20
114		Shiva	21500	analyst	2020-06-05
117		Irfan Ahmed	24841	tester	2019-05-18
