

Hospital Management Application

Application Endpoints

Physician & Department Management APIs

Domain Ownership: Doctor structure, departments, affiliations, certifications

Core Entities

- Physician
- Department
- Affiliated_With
- Trained_In

Endpoints

Physician APIs

- POST /api/physicians
- GET /api/physicians
- GET /api/physicians/{employeeId}
- PUT /api/physicians/{employeeId}
- DELETE /api/physicians/{employeeId}

Department APIs

- POST /api/departments
- GET /api/departments
- GET /api/departments/{departmentId}
- PUT /api/departments/{departmentId}
- GET /api/departments/{departmentId}/head

Physician–Department Affiliation

- POST /api/physicians/{employeeId}/affiliations
- GET /api/physicians/{employeeId}/affiliations
- GET /api/departments/{departmentId}/physicians

Physician Training / Certification

- POST /api/physicians/{employeeId}/trainings
- GET /api/physicians/{employeeId}/trainings
- GET /api/physicians/{employeeId}/trainings/valid

Patient & Appointment APIs

Domain Ownership: Patient lifecycle, appointments, PCP mapping

Core Entities

- Patient
- Appointment

Endpoints

Patient APIs

- POST /api/patients
- GET /api/patients
- GET /api/patients/{ssn}
- PUT /api/patients/{ssn}
- DELETE /api/patients/{ssn}

Patient–Physician (PCP)

- GET /api/patients/{ssn}/pcp
- PUT /api/patients/{ssn}/pcp/{physicianId}

Appointment APIs

- POST /api/appointments
- GET /api/appointments
- GET /api/appointments/{appointmentId}
- PUT /api/appointments/{appointmentId}
- DELETE /api/appointments/{appointmentId}

Appointment Queries

- GET /api/patients/{ssn}/appointments
- GET /api/physicians/{employeeId}/appointments

Hospital Management Application

- GET /api/appointments?date=YYYY-MM-DD

Nurse, On-Call & Room APIs

Domain Ownership: Nursing staff, shift scheduling, room inventory

Core Entities

- Nurse
- On_Call
- Room
- Block

Endpoints

Nurse APIs

- POST /api/nurses
- GET /api/nurses
- GET /api/nurses/{employeeId}
- PUT /api/nurses/{employeeId}

Nurse On-Call Scheduling

- POST /api/nurses/{employeeId}/on-call
- GET /api/nurses/{employeeId}/on-call
- GET /api/on-call?floor={floor}&code={code}
- DELETE /api/nurses/{employeeId}/on-call

Block & Room APIs

- GET /api/blocks
- GET /api/blocks/{floor}/{code}/rooms
- GET /api/rooms
- GET /api/rooms/{roomNumber}
- PUT /api/rooms/{roomNumber}/availability

Medication & Prescription APIs

Domain Ownership: Medicines, physician prescriptions, audits

Core Entities

- Medication
- Prescribes

Endpoints

Medication APIs

- POST /api/medications
- GET /api/medications
- GET /api/medications/{code}
- PUT /api/medications/{code}
- DELETE /api/medications/{code}

Prescription APIs

- POST /api/prescriptions
- GET /api/prescriptions
- GET /api/prescriptions/patient/{ssn}
- GET /api/prescriptions/physician/{employeeId}

Advanced Queries (Audit Friendly)

- GET /api/prescriptions?from=DATE&to=DATE
- GET /api/prescriptions/medication/{code}

Stay, Procedures & Treatment APIs

Domain Ownership: Hospital stays, procedures performed, compliance traceability

Core Entities

- Stay
- Procedures
- Undergoes

Endpoints

Hospital Management Application

Procedure Master APIs

- POST /api/procedures
- GET /api/procedures
- GET /api/procedures/{code}
- PUT /api/procedures/{code}

Patient Stay APIs

- POST /api/stays
- GET /api/stays/{stayId}
- GET /api/patients/{ssn}/stays

Treatment / Undergoes APIs

- POST /api/treatments
- GET /api/treatments
- GET /api/patients/{ssn}/treatments
- GET /api/stays/{stayId}/treatments

Compliance-Driven Reports

- GET /api/physicians/{employeeId}/procedures
- GET /api/procedures/{code}/patients
